This is the grant application form for a coalition. The organization application can be found [here].

There are 2 types of coalitions that are eligible for funding:

- An organization with at least 3 member organizations. An organization established as a coalition may apply for this grant if all the funding will be going directly to the coalition (and not the members in the coalition). You must show that the coalition is an existing organization with a history of work in DC.
- A project or alliance with at least 3 already existing groups working together. Please note that the groups coming together for the project should be independent and have a history of working in DC.

Coalitions/alliances must be led—that is, the people who will lead the work—by people of color. Proposals will not be disqualified if some (must be fewer than half) of the partner organizations are not led by people of color.

Please note that multiple individuals coming together on a project are welcome to apply as an organization/project.

Coalitions are eligible for grants of up to $15,000.

Definition of Social Justice

The Diverse City (DC) Fund defines social justice as the process through which society attains a more equitable distribution of power and resources in the political, economic, and social realms. To achieve this vision, people of color must be able to redefine their relationship to power, institutions, and each other. We believe in a systemic change approach that examines the intersecting causes of conditions, and seeks to identify and remove structural barriers to long-term opportunity and well-being.

The DC Fund invests in social justice projects which:

- Amplify the leadership and voice of those directly affected by issues and needs,
- Take action to create equitable outcomes and transfer of power and resources to directly-affected communities, and
- Tackle root problems by engaging directly-affected communities to find solutions, organize against oppression of all kinds, and create mechanisms for change.

Please see our Grantmaking Guidelines for more details.

For coalitions and alliances, more than half of the member organizations must be POC-led. However, the people leading the work of the coalition/alliance must be people of color.
